| 6-May-09 | Unknown | | M | 39 | Helicopter crash | Officers from the Australian Transport and Safety Bureau are on their way to the Kimberley to investigate a fatal crash involving two helicopters. The pilots of the helicopters died yesterday when their machines collided during a cattle muster on Springvale Station, about 50 kilometres north of Halls Creek. The victims were 37 year old Troy Arron Wareham, from Alice Springs, and 39 year old Matthew Warwick William Funnell, from Wanganui in New Zealand. An air search was launched when they could not be contacted by radio, and the wreckage was found about 16 kilometres from the homestead. Police say the two helicopters were about 30 metres apart. A team of five investigators are going to the Kimberley to examine the scene of the crash. WorkSafe and Police are also investigating the incident. | Farming | 2 |
| 11-May-09 | Unknown | | M | 41 | Fall from height | Water Corp worker falls to his death This latest incident follows the death of a 41 year old Water Corporation contractor after a fall at a water treatment plant at Australind on Monday. The man is believed to have fallen more than four metres. He was airlifted to Perth but died in Royal Perth Hospital that night | Maintenance | 1 |
| 12-May-09 | Unknown | | M | 56 | Quad bike accident | Second death in South west in two days WorkSafe is investigating a second work related death in the South West in as many days after a 56 year old worker was killed on a farm at Ferguson Valley near Dardanup yesterday afternoon. The man was employed by a weed spraying company and was riding a four wheel quad bike that rolled on a slope and killed him. He was working alone. | Farming | 1 |
| 30-May-09 | Unknown | | M | 34 | Machinery | Man Killed at Cape Preston, south of Karratha A man has been killed in a workplace accident on a mine site at Cape Preston, 70km south of Karratha in the North West of the state. The worker was employed by Downer Edi. Police were dispatched to the remote mine site at 5.25am Saturday after a 000 call from a distressed worker reported that a 34 year old man had been fatally injured. The circumstances surrounding the death are not clear, but it is understood to have involved machinery. A Department of Mines and Petroleum spokeswoman said inspectors would be sent to the mine site today to investigate the death. ``We have had a report of a death on a mine site in the Pilbara," she said. | Mining | 1 |
| 20-Jun-09 | Unknown | | M | 58 | Crushed bgy steel beam | Worker killed by falling steel beam A 58 year old man has been killed at work after he was hit by a falling steel beam. The incident occurred on Saturday while the man was working at a construction site in Kwinana. He is understood to have been in the bucket of an elevating work platform on a construction site on Saturday morning when he was struck by the steel beam. He was rushed to hospital but later died. WorkSafe inspectors travelled to the site soon after the incident and began interviewing witnesses. Investigations are continuing. | Construction | 1 |
